## GLIDER-LINK

Want to upgrade your vehicle chassis, but keep your reliable, older engine?

- Glider Link allows the marriage between a J1587/J1708 engine and a J1939 cab controller and dash panel
- J1587 to J1939 real-time parameter translation
- Ready to use, pre-configured for plug and play convenience
- Also provides translation of cab switches back to the engine (cruise control, fans, brakes, etc.)
- Competitively priced with unparalleled customer service
- Polycarbonate enclosures for long lasting durability
- Custom programming available, Please Contact Us

CAI has 25 years experience in heavy diesel engine and data bus products.
